ISUZU BVP.

SO WHY SHOULD YOU PURCHASE BVP BRAKE SHOES?

No one knows Isuzu products better than Isuzu and with the direct advantage of original engineering and design specifications at hand, the development of BVP product can deliver better value for money for your older Isuzu truck.

Most genuine items have been priced to compete effectively against aftermarket products while some segments of the market are more price sensitive than others. Isuzu has stepped outside of the box and found an avenue to produce competitive aftermarket product based on original designs and specifications.

The BVP brake shoe range consists of bonded linings on disposable shoes. The use of bonded linings significantly reduces the cost and saves on labour down time compared with riveted linings.

92957249	FRR 1996 - 1998 Excludes rear wheel air park brake	\$111.00

Isuzu diesel injector cleaner is a total injector treatment for diesel powered passenger cars and trucks. It's designed to remove conventional nozzle deposits as well as new internal diesel injector deposits. Isuzu diesel injector cleaner works in mineral diesel and biodiesel blends. One tank full of fuel treated with Isuzu diesel injector cleaner can help to:

- Restore lost power by removing harmful deposits from fouled injectors.
- Relieve cold start problems.
- Minimise harmful exhaust emissions.
- Reduce engine noise.
- Control injector deposits in biodiesel blends.

IMPORTANT INFORMATION

- Only add the Isuzu Diesel Injector Cleaner to a full tank of clean Diesel fuel.
- The use of Biodiesel and/or poor quality fuel will increase the required frequency of use of this product.
- Do not use more than the required dose or exceed the recommended frequency, over dosing can cause damage to the fuel system.
- The use of Premium Diesel fuels will eliminate or reduce the need to use this product.

ISUZU H SERIES INDUSTRIAL POWER UNITS MTS II

6HK1TQC01MTS2 shown for illustration purposes

Model	Rated Performance Output	Flywheel Housing	Flywheel	Price
6H Series				
6HK1TQC01MTS2	143.4KW [192HP] AT 2200 RPM	SAE #2	11.5"	\$ 37,812.50
6HK1XQP03MTS2	183.9KW [247HP] AT 2000 RPM	SAE #2	11.5"	\$ 42,487.50
6HK1XYBW02MTS2*	212KW [284HP] AT 2000 RPM	SAE #2	11.5"	\$ 43,000.00

*Common rail electronic engine

All MTS Series II power units are fitted with the advanced new Isuzu ENGINE CONTROLLER PRO.
A cost effective, user friendly and customisable Engine and Pump control, monitoring and protection system.

Engine Control Features	Irrigation Pump Control Features
Complete mechanical & electronic engine control, monitoring and protection	Low oil pump pressure switch control*
Oil pressure, coolant temperature, battery voltage and engine speed	Low oil/water level switch control*
IP65 enclosure with built-in E-Stop	Oil/water flow switch control*
Remote start/stop, shutdown engine control	Pump pressure switch/sensor control and monitoring (sensor only)**
Complete detailed events history log	Programmable 24/7 hour/day automatic pump control

*Programmable up to 5 min start-up delay. **Programmable up to 60 min start-up delay.

ENGINE CONTROLLER PRO available options		
Part Number	Description	Price
92957431	Pressure transducer 10bar with cable	\$405.66
92957549	Pressure transducer 16bar with cable	\$405.66
92957429	3g/4g remote communication eng ctrl pro	\$2,254.89
LCA12242396	Low coolant alarm	\$230.87
92957435	Harness patch; 1m dt 8 pin (for customer supplied harness)	\$150.45
92957587	Solar panel asm 160w portable	\$952.88
SRPARM	Remote monitor solar panel	\$105.88
